Performance Measures and Reporting Requirements

Performance measurement can be defined as the process of routinely measuring the outputs and outcomes produced by a program, thereby allowing one to assess the effectiveness of program investments and activities. It has been found that measuring performance builds consensus and commitment within the justice community, assists with the goal of obtaining and allocating resources, demonstrates success, and improves accountability.

The Department of Justice, the federal entity that administers the Delinquency Prevention Grant Program, has developed performance measures for all funded program types. As such, the Council requires that all funded subgrantees complete a quarterly statistical report using DOJ's Performance Measurement Tool (PMT). The PMT will ultimately help states produce evidence-based guidance on monitoring and evaluating all programs.

PMT reporting is completed based on grant-funded activities and due on the following dates:

Reporting Period	Due Date
October 1 – December 31	January 30
January 1 – June 30	July 30
July 1-December 31	January 30

SECTION IV: PROGRAM DESIGN

Purpose

There are vast differences in needs between youth who commit delinquent acts, youth who commit first-time nonviolent acts, and youth who commit status offenses also known as Children in Need of Services (CHINS). In certain circumstances, such as first-time nonviolent and CHINS youth, further intervention may not be necessary. Consequently, when services are appropriate for this population, effective interventions that target specific circumstances or criminogenic needs for these youth should be provided. In order to prevent further involvement with the justice system, programming should be available for first-time nonviolent and CHINS youth at the front end. The purpose of this grant opportunity is to provide funding to implement programming to serve youth at-risk for entering the juvenile justice system.

Program Period

This grant award period covers October 1, 2025 through September 30, 2026. Awarded agencies will be eligible for continued funding through September 30, 2026.

Target Population

Youth who are first time offenders, diverted from the juvenile justice system, charged with a status offense, and who are appropriate for the services offered by the program.

Goals and Objectives

Each applicant must utilize all of the following goals and objectives for its project. Applicants may add goals or objectives specific to their program.

Goals

- Enhance the capacity of counties to reduce risk factors and strengthen protective factors for at-risk youth through evidence-based programs.

Objectives

- Provide direct services through programming to counties for five years.
- Have a 75% successful completion rate in all recipient counties in the evidence-based program selected.

Services

Applicants are to apply for funding for the implementation of evidence-based programs and prevention strategies to serve local youth ages 12-17 who are first time offenders, diverted from the juvenile justice system, or charged with a status offense and identified as at-risk. The purpose of this grant is to address the specific criminogenic need of these youth with the overarching goal of reducing the risk of further involvement with the juvenile justice system. Applicants should choose a program that best suits the needs of their community. Examples of programming considered effective in addressing this population: Botvin LifeSkills (LST), Strengthening Families Program (SFP), and Positive Action (PA). Applicants are encouraged to review the Blueprints website when selecting a program to implement. This can be accessed at: <https://www.blueprintsprograms.org/>. All programs included in each application will be reviewed by CJCC. If you have further questions on programs or prevention strategies, please reach out to Haley Dunn-McKinney at haley.mckinney@cjcc.ga.gov or Chelsea Benson at chelsea.benson@cjcc.ga.gov.
