

Walk A Mile In Her Shoes

Benefitting the  lily pad
The official **march** against sexual violence

WALKER PACKET

Dear Walker,

Let me be the first to say a huge thank you for taking the time to consider walking in Lily Pad's event, Walk A Mile in Her Shoes. The event is set for Saturday, April 28th, 2018 at the Deerfield Windsor Upper Campus Track at 11 a.m.

Enclosed in this packet you will find information about this year's walk. There will be one form for both the MEN and WOMEN who wish to march. That's right guys; the ladies have joined the fun! There will also be a Superhero Fun Run where kids will race with their favorite superheroes to see who is the fastest. As soon as you confirm, please send us the Walker and/or Fun Run registration forms so we know to expect you. Included in registration walkers will receive this year's Walk A Mile t-shirt and "swag bag" full of goodies, while our superheroes will receive their very own cape and goody bag.

The Walker Sponsorship tracker is for you to use to collect sponsorships for your walk. Please track them on this tracker and turn in, at the event, with the money you collected. We challenge each walker to raise \$500 this year! I know you can do it! Please know \$500 is the goal, but it is not a requirement. We sincerely appreciate any amount.

The registration fee for all children is \$10.00. Children do not need to complete the sponsorship tracker for the Superhero Fun Run.

The Lily Pad is a non-profit center for victims of abuse. Your dedication and service will help these victims, who cannot speak for themselves, fight for justice. By participating in this event, you are directly helping to end sexual violence. It takes the entire community as a whole to fight for these innocent victims.

Again, we personally thank you from the bottom of our hearts for supporting the Lily Pad and Walking a Mile in Her Shoes!

Warmly,

The staff, volunteers, and board of the Lily Pad Inc.

\$500 provides a forensic interview conducted with children that have made allegations of being physically or sexually abused, severely neglected or witnesses to violent crimes. This includes a professionally trained Forensic Interviewer who provides expert testimony in court so that the child does not have to face their attacker, case tracking that follows the child from the time of the report until the investigation team closes the case, and evidence collection (audio, visual and drawings completed by the child).

\$1000 purchases 40 Rape Kits that include medical supplies necessary for the Sexual Assault Nurse examiners to provide forensic examinations for adult and child victims.

\$2500 provides 5 Sexual Assault examinations that include a specially trained nurse, evidence collection for law enforcement (biologic and photographic), and expert testimony for victims in court, a rape crisis advocate for the victim and accompaniment through the process of the law enforcement interview and forensic medical exam
