Structure: PARTNERS agree to the structure described below:

The Criminal Justice Coordinating Council (CJCC)

Management Team

This component shall be comprised of the Work Group Chairpersons, CJCC's Task Force Coordinator, Chairperson of the Executive Committee/Advisory Board, Executive Director of one Lead Agency (as selected by

the Executive Directors of all the Lead Agencies), and the Executive Director of Georgia Cares. This team manages overall Task Force operations as relate to the project planning and implementation by the Work Groups.

Executive Committee/Advisory Board

This component is comprised of eight to twelve high-level, influential, and widely respected individuals from across the State of Georgia. This Board gives the Human Trafficking Task Force its statewide presence and reach and is instrumental in state-level efforts (e.g., legislation, policy changes) and events (e.g., statewide conferences, etc.). Its members also serve as a source of expertise to provide guidance to the Task Force.

Lead Agencies

A lead agency is designated for each sector (i.e., law enforcement, business, civic, political, etc.) and serves as the Human Trafficking Task Force's primary convener of individuals and organizations within its sector, when needed. The service network is intended to refer to a specified network of agencies that are routinely utilized by Georgia Cares.

Work Groups

One Work Group shall be established for each of the eight goals. Each shall plan and implement projects to related to the goal for which was established. Work Group Chairs may be nominated by Task Force members. Selection and installation of Work Group Chairs is the sole responsibility of CJCC.

Operations

PARTNERS agree to work together in accordance with the operating principles of Collective Impact. These principals are presented below:

Backbone Support: Creating and managing collective impact requires a separate organization(s) with staff and a specific set of skills to serve as the backbone for the entire initiative and coordinate participating organizations and agencies.

Continuous Communication: Consistent and open communication is needed across the many players to build trust, assure mutual objectives, and create common motivation.

Common Agenda: All participants have a shared vision for change including a common understanding of the problem and a joint approach to solving it through agreed upon actions.

Mutually Reinforcing Activities: Participant activities must be differentiated while still being coordinated through a mutually reinforcing plan of action.

Shared Measurement: Collecting data and measuring results consistently across all participants ensures efforts remain aligned and participants hold each other accountable.
